

Guide to phaasaa eldêə

Here's how you set up phaasaa eldêə on Word. First of all, you have to use either the Lucida Sans Unicode font or the Arial Unicode MS font (they're the only ones I've found so far that have all the characters).

For each of these symbols, do the following.

1. Click on Insert->Symbol
2. Type in the character code
3. Click on Shortcut Key
4. In "Press new shortcut key," hit the shortcut key combination.
5. Click on "Close."

Symbol	Character Code	Recommended Shortcut Key
ŋ / ɲ	014B	Alt-n
ə / ɐ	0259	Alt-e
ɛ / ɛ	025B	Alt-a
ɥ / ɥ	0289	Alt-u
ɔ / ɔ	0254	Alt-o
ʔ / ʔ	02C0	Alt-?
̀ / ̀	0300	Alt-1 (èeg)
^ / ^	0302	Alt-2 (thoo)
´ / ´	0301	Alt-3 (trii)
˘ / ˘	0306	Alt-4 (càdtawaa)

To use the tone mark shortcuts, type them in after the character you'd like them to appear on (e.g., type a and then Alt-1 to get à).

Sample:

thâa pen pay day raw yàag hây phûagthâan rǎw sàadsanãa dũay sùdcìd sùdcay phîa
wâa thâan cà' mii khwaamsãmrèd nay kaankhayăay kaanriag khwǎwɲ thâan ná' khráb
